

Leader in Power Transmission Equipment

Key Milestones in Our History

- ◆ **1886**
Carlo MAINA starts the activity
- ◆ **1919**
The cast-iron foundry and cast-iron pulley production are launched
- ◆ **1950**
The production of gear coupling starts
- ◆ **1965**
The first gear spindles for rolling mills are designed and produced
- ◆ **1984**
The production of universal shafts and gear boxes starts
- ◆ **1994**
DNV certifies our quality assurance system

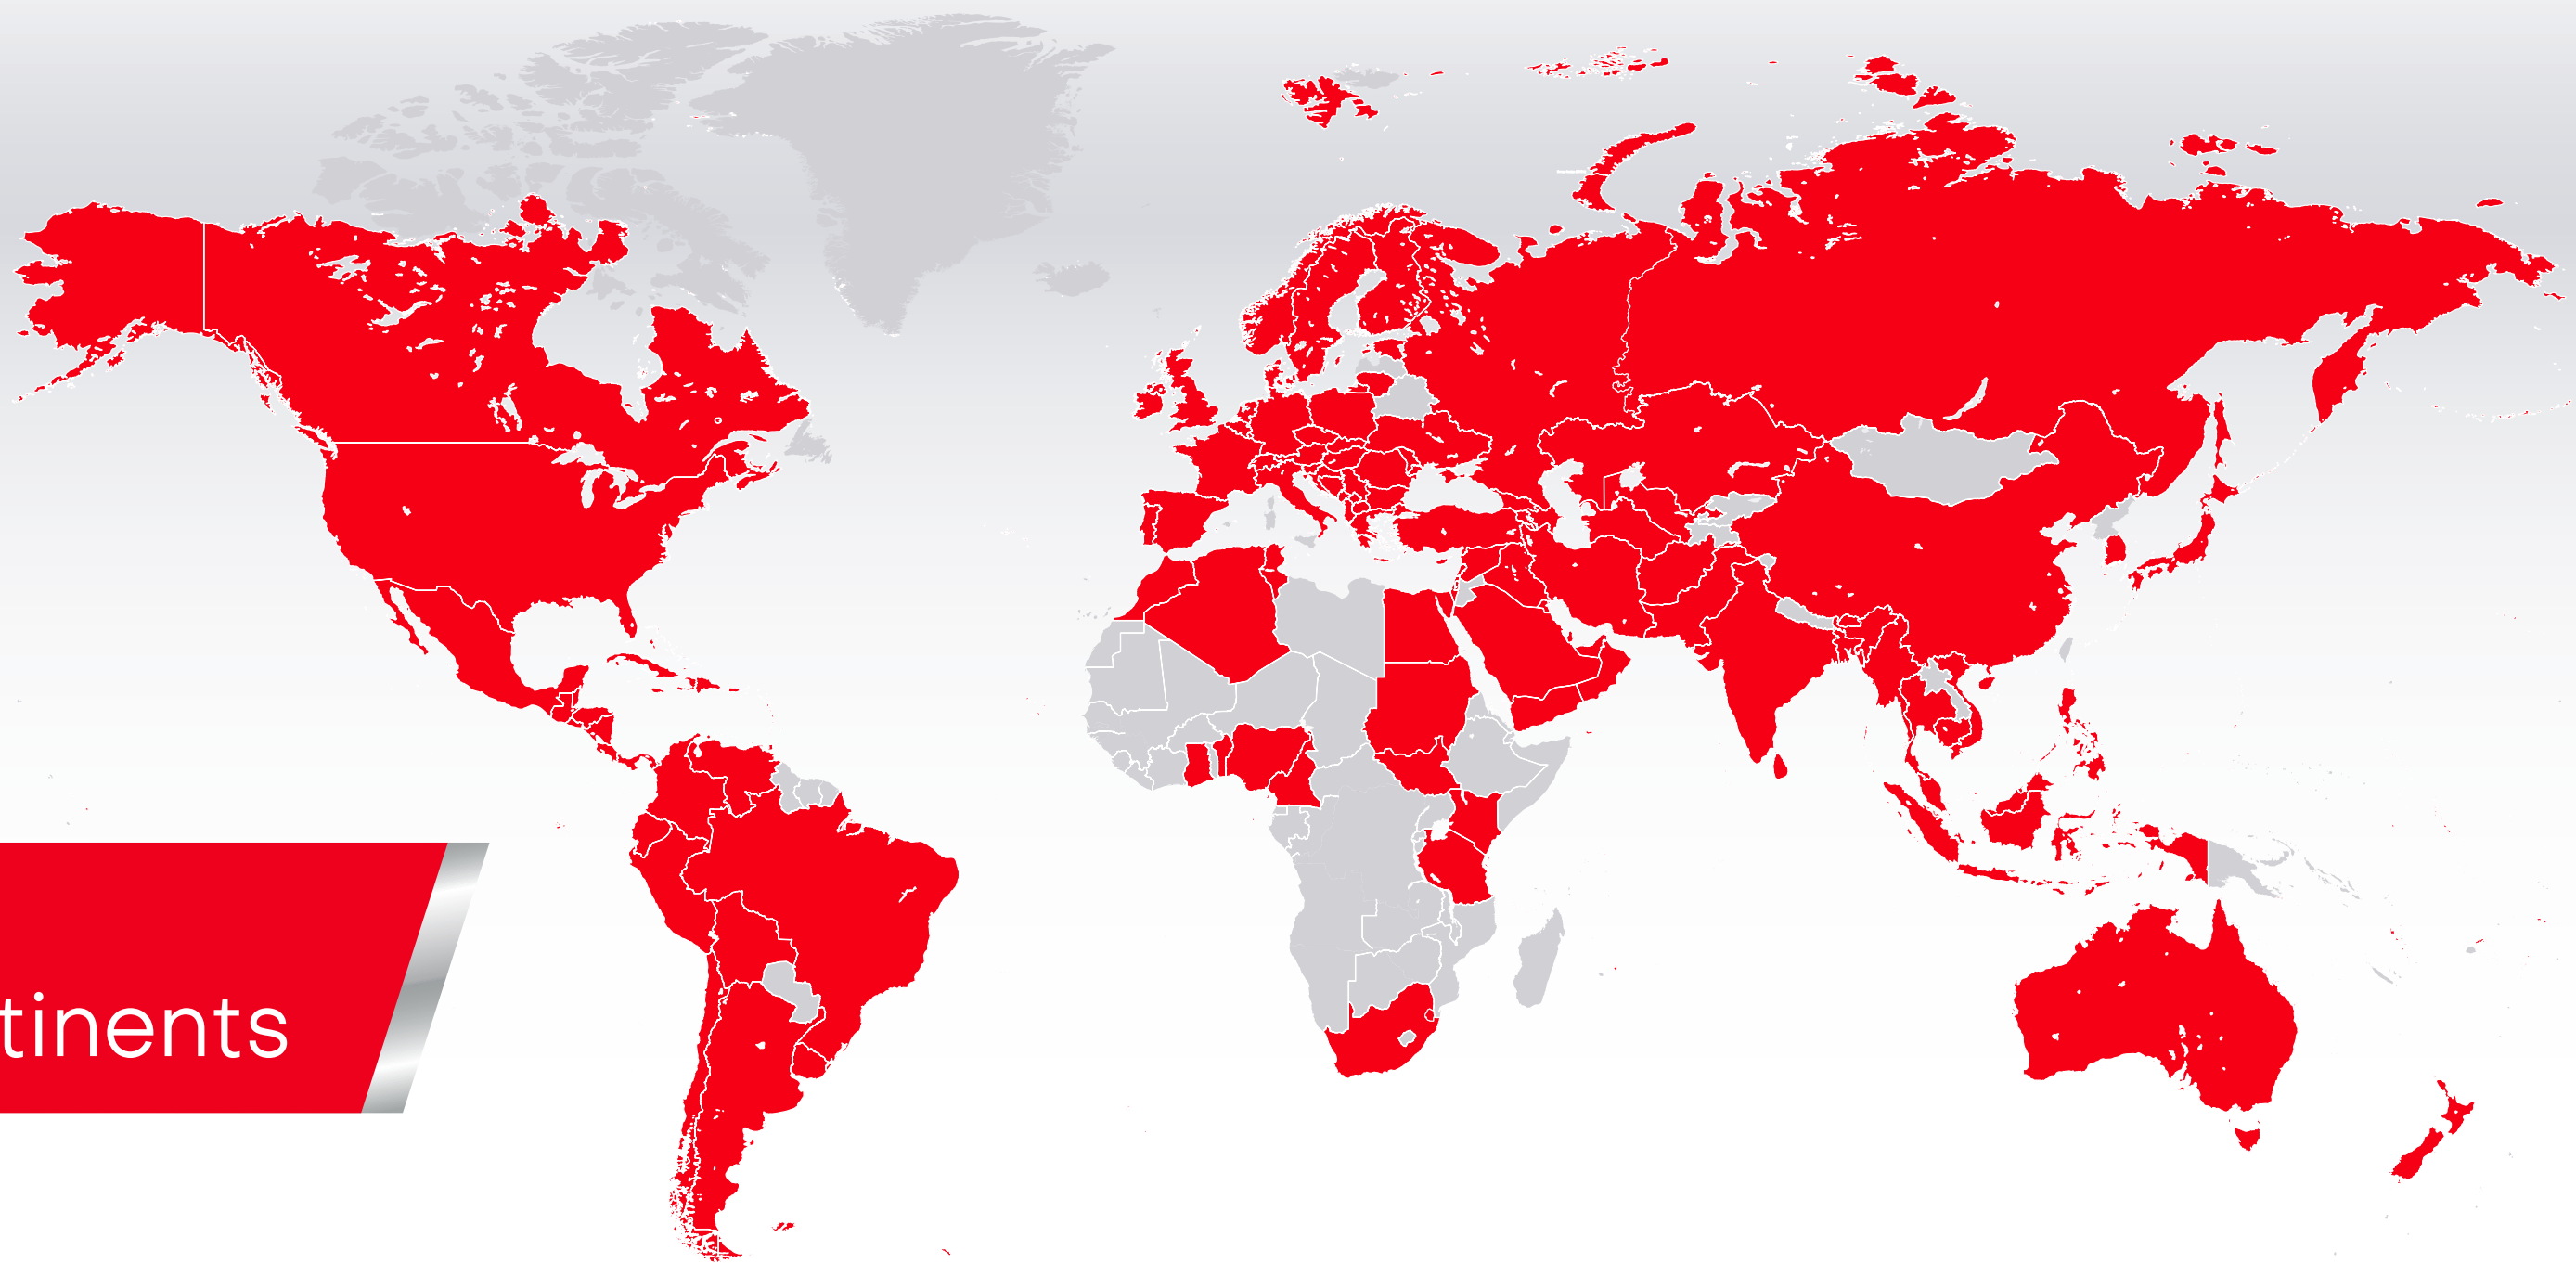

Key Milestones in Our History

- ◆ **2008**
We establish an office in Shanghai, China, solidifying our presence in the Asian market
- ◆ **2011**
We obtain a patent for the Hydro-Safe® device

- ◆ **2020**
We introduce «shot-peening» into U-shaft production, enhancing the reliability and durability of Maina cardan shafts
- ◆ **2023**
The official branch of our Company is opened in Bangalore, India

Operating in More Than
90 Countries Across 6 Continents

Our Key Strengths

- ◆ All our products are manufactured in Italy, ensuring full control over the entire process.
- ◆ We exclusively source materials from certified European suppliers.
- ◆ Our products rank among the top-tier global industry leaders.
- ◆ Profound technological expertise acquired through years of dedicated investment and research.
- ◆ Quality control during every stage of the production process.
- ◆ Flexibility to meet customer demands and provide tailored technical solutions.
- ◆ Right prices.

25 000 m²
of Production Facilities

- ◆ Machinery
- ◆ Welding
- ◆ Robotized production
- ◆ Assembling

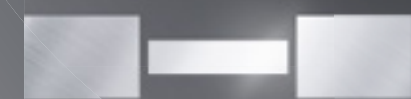

Average annual
turnover: €40 million
